

Manufacturing Foods with SAP Business One®

Before: Challenges and Opportunities

- Need for integrated ERP that can track all transactions as business grows
- Lack of automation and traceability

Why SAP & Advanced Business Solutions

- Affordable and cost-effective for SMEs
- Fast implementation process
- Localization flexibility (language & currency)
- SAP Business One is simple to learn and use for all employees

After: Value-Driven Results

- Accurate and real-time company data
- Higher efficiency in daily operations
- Saved time and cut costs
- Quick and easy extraction of financial reports
- Ability to make informed decisions based on accurate data

شركة أبو عودة إخوان ذ.م.م.

Abu Odeh Bros.Co.Ltd

"I advise everyone to go for SAP Business One which was a milestone for our group. We've cut down many manual steps and are doing more with the number of employees remaining consistent, helping us grow and increase overall profits."

Mohammad Abu Odeh, General Manager, Abu Odeh Bros.
