

# Rapidly Evolving with SAP® Business One

## Before: Challenges and Opportunities

- Existing software unable to keep up with the company's growth in Jordan (3 entities) and UAE
- Need for warehouse integration

## Why SAP Partner and Solution

- SAP Business One integrates every aspect of the business within a single solution
- Offers monitors and KPIs to control material flow and workload
- ABS was highly recommended by Allayan IT team after thorough analysis and strong recommendations

## After: Value-Driven Results

- Ability to monitor inventory levels across all warehouses and schedule replenishment to meet demand
- Easy and simple management of sales, warehouse and financials; access to performance analysis paving the way for regional expansion.

“We chose SAP Business One as it could offer complete back office management solution at a very affordable price. Advanced Business Solutions has made the implementation process easy to digest and took us through it step by step. Their support post-implementation has significantly increased our trust in them.”

*Issa Al Khatib, CEO, Allayan General Supplies*
