

# Creative Designing with SAP Business One®

## Before: Challenges and Opportunities

- Manual processes were consuming too much time and effort
- Risk of data duplication and errors
- Looking for a single platform to replace multiple system integrations

## Why SAP Partner and Solution

- User-friendly interface & ease of integration with other applications
- SAP Business One provides the company with better control and valuable insight to identify new opportunities to cut costs, grow profits and expand the business
- Advanced Business Solutions holds 10 years of experience in most industries. They were highly recommended and are trusted by many companies in Jordan and UAE

## After: Value-Driven Results

- Faster operations across all departments
- Day-to-day workflows are simplified, increasing employee efficiency
- Reduced errors which now allows us to generate reliable business data reports and financial analyses.

“All of the manual work is now taken care of in one, single integrated system; SAP Business One. We thank Advanced Business Solutions for truly understanding our business needs and working with us accordingly.”
