

Growing Faster and Smoother with SAP Business One®

Before: Challenges and Opportunities

- Company growth was prompting the need for an advanced ERP system to centralize all transactions
- Need for a single solution that could integrate all aspects of the business
- Desire to gain control and clear visibility into daily operations

Why SAP Partner and Solution

- SAP Business One was the only solution that fulfilled the company's needs in a single, user-friendly package
- SAP Business One is robust and stable, and can be customized to specific business requirements
- Advanced Business Solutions was a compelling reason for the selection of SAP Business One due to their know-how and significant expertise in the region, especially in Jordan and Iraq

After: Value-Driven Results

- Timely, accurate and complete information leads to operational effectiveness and creates competitive advantage
- Unified view of the business in real-time
- Improved communication between departments
- Reduced human error which eventually generated reliable business data.

“In today’s competitive market, without a doubt, having an ERP partner like Advanced Business Solutions, accompanied by SAP Business One, is going to help us foster sustained growth over the years.”
