

Injaz and IEG Enjoy Vigorous Growth with SAP Business One®

Before: Challenges and Opportunities

- Slow and difficult access to inventories
- Low time efficiency

Why SAP Partner and Solution

- Excellent match with functional requirements
- User-friendly interface & ease of integration with other applications
- Automated data collection and reporting across business unites
- Real-time insight into business activities

After: Value-Driven Results

- Decreased response time to market demands
- Accelerated order-to-delivery process
- MRP reduced stock levels by accurately predicting demand based on forecasts, allowing us to adjust material planning accordingly
- A systemized approach to supply management helped us create robust, agile and efficient supply operations, and improve our inventory control
- Ability to run highly complex and data-intensive analyses in real time
- Inventory management provides flexible, automated support in processing goods movements and in managing stocks in our warehouse complex.

“I advise everyone to consider investing in SAP Business One which transformed our business. It was a milestone for our group, and I’m delighted to share we are now on par with world-class enterprises. I’d like to strongly thank ABS’ team for guiding us step by step.”
